

ComicCraft – AI Comic Story Creator Using Gemini Models

Phase 6 – Project Testing

1. Testing Objective

Testing is performed to make sure that the ComicCraft application works correctly.

2. Test Cases

Test Case	Input	Expected Output
1	Magical forest	Comic story generated
2	Space adventure	Space story generated
3	Funny robot	Funny comic generated
4	Empty input	Error message

3. Input Validation

```
def check_prompt(prompt):  
    if prompt == "":  
        return "Please enter a story idea."  
  
    return "Story generated successfully!"
```

4. Final Testing Result

The application should successfully:

- Accept the user's story idea
- Send the prompt to the backend
- Generate content using Gemini AI
- Display characters
- Display scenes
- Display dialogues
- Display comic panel descriptions

5. Final Output

ComicCraft

Story: The Magical Forest

Characters:

- Arun
- Maya

Scene 1:

Arun enters a mysterious forest.

Dialogue:

Arun: "Where am I?"

Scene 2:

A magical creature appears.

Dialogue:

Creature: "Welcome to the magical forest!"

6. Conclusion

The testing phase confirms that ComicCraft can accept a story prompt and generate a structured comic story using Gemini AI.
